

NITRI-FLEX LITE®

Nitri-Flex® Lite takes the Nitri-Flex® product line to new heights in tactile dexterity and comfort. Employing the same flat dipped technology, Nitri-Flex® Lite is available in a super-breathable nylon shell. The glove is ideal for jobs requiring the utmost in tactile discrimination as well as those demanding puncture and abrasion protection. Because its palm dipped in nitrile, Nitri-Flex® Lite delivers a lower electrostatic discharge than comparable Natural Rubber coated gloves.
