

3 Mini-CAF

Hand-Held CAF System

- 3 Gallons of solution produces up to 60 gallons of finished foam
- Variable Foam expansion from 10:1 to 20:1
- Easy to use - minimal training required
- Up to 400 sq. ft. of finished foam
- Easily rechargeable in the field
- Discharge distance up to 45 feet

One of our best selling systems, the TRI-MAX 3 Mini-CAF comes in a small package but delivers a big punch. Portable and easy to use, the TM 3 Mini-CAF is able to furnish up to 60 gallons of finished foam from a 3 gallon tank. The TM 3 Mini-CAF unit is perfectly designed to handle flammable or hazardous chemical spills. The patented TRI-MAX process creates a thicker vapor sealing blanket preventing toxic vapor release or fire re-ignition. The TM 3 Mini-CAF has clearly proven itself to be the very best "first responder" unit on the market.
